## SUMMARY

Aspiring Software Developer with a solid foundation in Core Java, web technologies, and database management. Seeking a position in an IT-based company where I can apply my skills and continue to grow professionally.

## TECHNICAL SKILLS

**Languages:** Core Java, C++, PHP.

**Web Technologies**: — HTML, CSS, JavaScript.

**Frameworks:** Bootstrap, Dot-Net.

**Databases:** SQL, MySQL .

**Version Control:** Git, GitHub .

**Developer Tools:** VS Code, Android Studio, IntelliJ Idea Ultimate, Eclipse, NetBeans.

## EXPERIENCE

**Flutter Developer Intern**                                                                              **04 2025 – Present**
*woodapple software solutions private limited*                                             *Dombivli, Thane*
- Developed responsive, cross-platform mobile applications using Flutter.
- Integrated RESTful APIs and managed JSON data for front-end/back-end communication.
- Utilized GetX for state management and routing in large-scale projects.
- Created custom UI components, including bottom sheets and calendar views.
- Applied MVVM architecture to maintain clean and scalable code.
- Optimized application performance to enhance UI responsiveness and reduce load times.

## PROJECTS

**Airline Reservation System – JAVA**
- Developed a command-line based Airline Reservation System using Core Java to manage flight bookings and reservations.
- Implemented features including searching available flights, booking tickets, canceling reservations, and viewing flight details.
- Used file handling techniques to store and retrieve customer data and flight information.

**Job Portal – PHP, MySQL, JavaScript, HTML, CSS**
- Developed a dynamic Job Portal web application using HTML, CSS, PHP, and MySQL for job seekers and employers.
- Designed and implemented user-friendly web pages for job listings, user registration, job applications, and employer dashboards. Integrated a MySQL database to store and manage user data, job postings, applications, and employer profiles.
